

Dragonfly Tarot

# Prepare for Your Reading and What to Expect

I am honored that you chose me for your reading. Please know that I put much thought and energy into every reading I do so that I can best serve you and provide the best guidance for you.

Please thoughtfully consider the question(s) you would like to ask and provide them in the comments area of the booking request.

At the time of the reading please make sure you are in a quiet place with no interruptions. Take a few minutes to clear your mind before our call.

The way I read is somewhat different from other Tarot card readers. Before our appointment time I will meditate on your questions and then pull cards for each question and write up my interpretation of the cards that come up for you. This takes about an hour or so. I will provide you with the written reading, as well as a photo of the layout of the cards. At the time of our meeting we will discuss what came through for me and I can pull another card or two for clarification.

Please remember that the information that comes is what I am seeing at the time of the reading. Things can change. For example, if the cards show that you will be changing jobs but you don't apply for any new jobs...well, you get the point. :)

I so look forward to being the person to assist you and guide you in your life journey.
